**Best Investment  
a COW OWNER  
CAN MAKE**

THAT'S what over two million cow owners the world over have found the De Laval Cream Separator to be.

A De Laval Separator saves butter-fat and produces cream of superior quality over any setting system or any other separator every time it is used, twice a day every day in the year.

It involves far less labor than any setting system, has greater capacity, runs easier and lasts from two to ten times longer than any other separator.

Even if you have only two or three cows, if you are selling cream or making butter, a De Laval Cream Separator is the most profitable investment you can make.

If you are using any other cream separator it will certainly pay you to try a De Laval alongside your present machine and see how much cleaner you can skim with a De Laval, and also how much easier it is to run and keep clean and sanitary.

When you consider that a De Laval Separator usually saves its cost the first year and frequently in a few months, and then goes right on doing so for from ten to twenty years, and it is further understood that the De Laval may be purchased on such terms that it will actually pay for itself while you are using it, it can easily be seen that there is no excuse for any one putting off the purchase of this great cream-saving machine.

### Local and General

Mr. Frank Laut was handing out cigars the fore part of the week. The news of the birth of a son to Mr. and Mrs. Laut on Sunday last had preceded Frank's visit to town.

Big alterations are taking place in the south elevator of the Alberta Grain Co., whereby they will be in a position to handle next season's grain more expeditiously.

Only two more weeks off the Best Country Fair in the Province. Our Fair has gained this reputation in former years. Help to keep up the good repute by making an exhibit of something of yours.

A new sidewalk is under construction on the new road up to the school. This has been required for a long time and will be of great benefit to the children attending school.

Frank Gondsall has this week become a land proprietor, having purchased three lots south of town. Frank intends going in for chicken farming.

W. Laut in winter his plot of land on which he intends to build his house. When the proposed park site gets fenced in it will be quite an improvement to the village.

## Canada's Registration

Its Purpose and Application

CANADA faces the gravest crisis in her history. Four years of war have taken from the Dominion a heavy toll in talent and labor, yet despite the shortage of man power, our Allies still depend on Canada to maintain her own fighting forces at full strength and to increase her exports of food and war materials, so vital to them, and to the successful prosecution of the war.

Every ounce by which Canada can increase her food production and every ounce Canada can save in her food consumption is needed for export to the Allies.

Should the war continue for another year, food cards and a rationing system may have to be instituted. It is the duty of Canada to be prepared for whatever situation circumstances may force upon her.

It is quite probable that before the war is won our Government may have to place restrictions upon the occupations in which men and women may engage. In such an event the Government wishes to be in a position to render all possible assistance in keeping our population usefully and profitably employed.

### Registration Day, June 22nd

These conditions point to the necessity of Canada knowing the exact capabilities of her men and women at home.

All persons residing in Canada, male or female, British or alien of 16 years and over, will be required to register on June 22nd and truthfully answer the questions set forth upon the registration card.

It is not the Government's intention to conscript labor in any form, but to assist in directing it wisely,

so that every available unit of human energy may be utilized to the best advantage.

The information procured through registration will be used as an aid to the Military Authorities in procuring the men necessary to maintain "Canada's First Line of Defence"—to mobilize all units of available labor in the Dominion and direct them from less essential to more essential occupations—to establish and intelligently administer a system of food rationing should that become necessary.

Issued by authority of Canada Registration Board

## Canada and the U. S.

Americans in general know too little about Canada. Canadians, on the other hand, know a lot about the United States. Canadian school courses give adequate courses on the geography, the history and the resources of this country, while our content themselves with a hasty survey of our neighbor. As partners in this great war enterprise, Canada and the United States have reached a unity of purpose which cements the friendship of the last century in new bonds. We ought to get acquainted and keep acquainted in the years to come.—Detroit News.

## Catarrh Cannot be Cured

with LOCAL APPLICATIONS, as they almost reach the seat of the disease. Catarrh is a local disease, greatly influenced by constitutional conditions, and so order to cure you must take an internal remedy. Hall's Catarrh Cure is a local remedy, and acts through the blood on the mucous surfaces of the system. Hall's Catarrh Cure was first used by one of the best physicians in this country for years. It is composed of some of the best blood purifiers, combined with some of the best blood tonics. A full trial of Hall's Catarrh Cure is what you need, and you will find it results in catarrhal conditions. Send for a free trial.

Under the auspices of the Canada food board, 25,000 Canadian boys from 15 to 19 years of age, were called to help out this summer on the farm. To date, 23,000 responses in Ontario and the western provinces alone. Quebec and the Maritime Provinces hold their enrolment later.

## Back Ache!

**NATURE** gives warning of approaching disaster, and backache tells you that the kidneys are deranged.

As soon as the kidneys fail poisons are left in the blood, which cause aches and pains, rheumatism and lumbago.

The digestive system is interrelated with, and there is gradual loss of flesh and harshness and dryness of the skin. There is often headache and dropsical swelling of the limbs.

The most effective treatment is that which awakens the action of the liver and bowels, as well as the kidneys, for these organs work together in removing the poisonous impurities from the system.

This is the reason why Dr. Chase's Kidney-Liver Pills are so successful in the treatment of diseases of the kidneys. This is why they frequently cure when ordinary kidney medicines fail.

Just put this medicine to the test when you have backache, headache and other indications that these filtering and eliminating organs are sluggish in action, and see how quickly they will respond.

Prevention is always the wiser course. For this reason it is well to keep Dr. Chase's Kidney-Liver Pills at hand, and by regulating these organs forestall serious disease.

## To Give People Homes

The British government is proposing to grant financial aid for the erection of 800,000 houses in England and Wales and 50,000 in Scotland, building to be begun during the demobilization of the forces. The national housing and town planning council is to consider a comprehensive scheme for London and Greater London. Various suggestions are to be dealt with. Among others, the preferential treatment shall be given to large families, that slum areas shall be cleared and housing schemes carried into effect wherever there is a shortage.

## Bad Year Ahead

In Forest Fires  
Rangers Ask Public to Help Them  
Keep Fire Out of the Woods

The danger season for forest fires is near at hand. Rapidly drying weather has left the old grass, brush, leaves, etc., in most perilous condition for starting fires.

An effort is being made by the fire rangers in this province to keep down the forest losses this year to a minimum. They will succeed only if every camper carefully extinguishes his campfire before leaving it, if every smoker refrains from tossing away burnt matches or tobacco in or near a wood, and if settlers in the newly opened districts guard their land-clearing fires with the utmost care. Settlers' fires continue to be the very worst source of forest conflagration, although campers and careless smokers are close competitors.

"The fire rangers," says the Canadian Forestry Association, "want every good citizen to regard himself as a deputy ranger from now until November first."

"A Canadian forest was never worth so much as today, never gave so many jobs as today, never put into circulation as it does this year."

SPRING IMPURITIES  
CLOG THE BLOOD

A Tonic Medicine Is a Necessity at This Season

Dr. Williams' Pink Pills for Pale People are an all-year-round tonic, blood-builder and nerve restorer. But they are especially valuable in the spring when the system is loaded with the debris of the winter months. There is no other season of the year when the blood to such much in need of purifying and enriching, and every dose of these pills helps to make the red blood of the spring.

One feels weak and tired—Dr. Williams' Pink Pills give new strength—in the blood. The appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disgusting pimples, eruptions and boils.

Dr. Williams' Pink Pills speedily clear the skin because they get to the root of the trouble in the blood. In the spring, anemia, rheumatism, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time, when all nature takes on new life, that the blood must seriously needs attention. Dr. Williams' Pink Pills actually renew and enrich the blood, and this new blood reaches every organ and every nerve in the body, bringing new health and new strength to weak, easily tired men, women and children.—Here is a bit of proof: Miss Anna Patterson, R. F. No. 1, Thorold, Ont., says:

"My trouble was one of general weakness, which thinned my blood and gave me times unbearable headaches, loss of appetite and also loss in weight. I tried several medicines, but without success. Then I heard of Dr. Williams' Pink Pills and decided to give them a fair trial. The result is that I feel like a new person. My appetite improved, I gained in weight, my blood is thoroughly purified, and my face cleared of some unsightly pimples which had troubled me. If one good turn deserves another then I have much pleasure in recommending Dr. Williams' Pink Pills."

If you need a medicine this spring try Dr. Williams' Pink Pills—they will not disappoint you. These pills are sold by all medicine dealers, or you can get them by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## Unwholesome Foodstuffs

Their Destruction Provided for in Bill to Be Introduced

The confederation and destruction of unsound or unwholesome foodstuffs found in packing houses or cold-storage warehouses is provided for in a resolution of which notice has been given by Hon. T. A. Crerar, minister of agriculture, on which a bill will be based. The resolution provides that abattoirs, packing houses or other premises where foodstuffs are kept, shall be kept under the provisions of the meat and canned foods act. It provides also for inspection of the quality of foodstuffs imported or exported.

## "I Believe They Have Cured Me"

WHAT NEWTON P. SMITH SAYS OF DODD'S KIDNEY PILLS

He Had Previously Tried Doctor's Medicine, Plasters and Liniments for His Back Pain Without Getting Permanent Results.

Parker's Ridge, York Co., N. B. (Special).—After suffering for years from pain in the back, Newton P. Smith, a highly-respected citizen of this place, believes that at last he has found a permanent cure through the use of Dodd's Kidney Pills. Asked to make a statement for publication, Mr. Smith says:

"I suffered for a number of years with pain in my back. At times I was unable to work. After taking doctor's medicine and using plasters and liniments with but temporary relief, I decided to try Dodd's Kidney Pills, which I believe have cured me."

All through York County you find people who give credit to Dodd's Kidney Pills for a renewed lease of health. They have been tried for all forms of kidney diseases, including rheumatism, dropsy, Bright's disease, lumbago, heart disease and diabetes, as well as the milder forms of kidney trouble. Their popularity all over the country is a tribute to the splendid results obtained. If you haven't used them, ask your neighbors about them.

## Calgary Exhibition

One hundred and ten thousand visitors took a holiday last year at the Calgary Exhibition, and the number will most likely be considerably increased this year. The event will be held at Calgary, June 28th to July 6th. After such a hard year's work in the interests of production, there never was a time when a holiday was more deserved or more essential to western Canadian residents.

The Calgary Industrial Exhibition provides the best kind of recreation because it combines the most enjoyable entertainment with the inspiration and instruction of seeing the nation's best live stock and industrial products, added to the many pleasant surprises of interesting friends though it be hundreds of miles away.

So pack all your troubles and come along. After you have seen the grand exhibits and had a good time, you will go back ready for work. You will never find where you left those troubles. There are reduced passenger rates from Alberta points, and the Exhibition conducts at the C.P.R. station at Calgary a free bureau for securing accommodation in case you do not stay at a hotel.

Girls' and Boys' Day, Saturday, June 29th, will be a grand exhibition in itself. They will compete for \$3,500 in prizes, and it will be the young people's greatest day. The girls' and boys' live stock parade and presentation of prizes in the evening will be worth going miles to see. Come and encourage them.

Saturday, Monday, Tuesday and Wednesday will be the jumping days for the greatest display of livestock ever seen in Western Canada.

When you have seen the exhibits you will be entertained by the best artists in the world. There will also be horse races the first four days and auto races by the fastest drivers on July 4th and 5th. Then a stroll down Funsline Alley to see the best shows ever on the Calgary Exhibition Grounds, and the last of your worries will have vanished.

Arrangements have been made for parking and checking automobile on the exhibition grounds.

Exhibition entries close on June 15th, and prize lists may be obtained by writing E. L. Richardson, Manager Calgary Industrial Exhibition, Calgary, Alberta.

## Milk in the Hog Ration

In order to raise and finish all the extra pigs that will be farrowed in Canada this year as a result of the campaign for increased production, it will be necessary to exercise the utmost economy in the use of concentrated foods. Pig raisers who have access to dairy by-products have a great advantage over others. Experiments have proven that when meal is worth \$40 a ton, milk is worth more than \$8 for an equal weight, that is provided it is fed economically. Experiments carried on at the Dominion Experimental Farms and Stations show that for growing hogs, 60 lbs. and over, 409 lbs. of skim milk produced results equal to 100 lbs. of mixed meal. Buttermilk fed fresh is equal to skim milk. Whey is not so valuable. One hundred pounds of whey was proved equal to 19.2 lbs. of milk, that is, provided it is fed in not too large quantities and before it has soured.

A study of experiments with skim milk show that for young pigs 1 lb. of milk fed with 2 1/2 or 3 lbs. of meal gives best results. For larger hogs less milk may be used. For hogs over 100 lbs. in weight not more than 5 lbs. of skim milk daily should be fed in order to get the greatest value from the milk.

At the Nova Scotia Agricultural College it was shown that the best gains were made by feeding a lot of pig ration composed of 148 lbs. of grain, 90 lbs. of skim milk, and 110 lbs. of mangels. At the Ontario Agricultural College the best results were obtained where the proportion of milk to meal was 2.5 to 1. In one trial in which this proportion was used, 365 lbs. of skim milk were equal to 100 lbs. of meal. This agrees fairly closely with the results obtained at the Ottawa and Branch Farms.

In a series of articles that appeared in the May number of The Agricultural Gazette, both the Ottawa and Guelph authorities agree that it does not do to change the diet from sweet to sour milk. For young pigs the sweet is much to be preferred. For larger pigs it seems to make little difference whether or not it is fed sweet or moderately sour, provided whatever condition favoured is uniformly kept up, that is to say, if the milk cannot be obtained always sweet, then it should be fed sour as a rule.

## Soldiers of the Soil

Province of Alberta

TWENTY-FIVE THOUSAND OR MORE OLDER BOYS, FROM FIFTEEN TO NINETEEN YEARS, ARE NOW ENLISTED AND ORGANIZED, UNDER THE DIRECTION OF THE CANADA FOOD BOARD, TO GO OUT TO THE FARMS TO DO THEIR PART IN THE CAMPAIGN FOR GREATER PRODUCTION.

### What Does this Mean for Canada?

It means increased production. If what the 6,000 boys working in Ontario last year were able to produce had been put together in one place, it would have made a handsome showing. When this is carried out by the organized efforts of boys over the whole of Canada, it will help very materially in winning the war.

It means trained workers for the years ahead. However serious the shortage of labour is this year, it will be more acute next year and during the difficult years ahead. It will mean a great deal to Canada if her own native sons are trained for work on the farms.

It means the solution of some difficult economic problems when the rising generation comes into the responsibility of citizenship.

### What Does it Mean to the Farmer?

Help for haying and harvest, help for the innumerable duties always waiting to be done about the farm. Boys cannot do everything, but they can do many things, and are usually glad to learn to do more. They can release men for service where necessary then some that they might ordinarily perform.

LARGER CROPS.—With this army of boys ready for service when needed, farmers can with confidence sow more extensively, and when harvest time comes they can get the labor needed.

A better understanding of urban conditions, and the realization of the part he must play in solving the community, national and world problems. This movement will broaden the vision of boys and farmers alike.

### What Does it Mean to the Boy?

It means the introduction to a new life and to broader experiences. Life in the country will make a strong appeal to many lads. By learning to do things his self-reliance will be increased.

Then I will say what I have to now, Reuben retorted, and have my cousin as witness. I know that letter I gave you by heart, Anne, and I understand what it means. On the face of that I ask you to marry me.

She drew herself up to her full height and looked at him for a moment with scorn in her blue eyes.

Then she dropped him a stately curtsey.

I am grateful for your magnanimous offer, Mr. Symonds, she said, but I refuse it. Good-night.

You will be wiser if you keep friends with me. I am not a nice enemy, he observed.

Harry, Lady Anne said, suddenly turning to the young American, will you take him away? He wears me. Harry laid his hand upon the arm of Reuben, but she jerked it off angrily.

I am going, he said to Lady Anne, as she rang the bell. But you will be very sorry for this. Laisie batted her eyes in the hall outside, but she brushed herself with the overcoat, but her fingers trembled with excitement.

I am dismissed, she whispered to Reuben, so loudly that Harry overheard the words. Sent away by my lady because I have forgotten my book! I have learnt a secret—oh, a secret of much value! Shall I tell it now to both you gentlemen?

No! Reuben answered sharply. Not to both. Come around to the hotel and tell it to me.

## CHAPTER XL

The Truth About Lady Anne

Early the next morning, not long after dawn, Harry was out, securing the rooms above the sea on horseback.

He could think better, he told himself in the midst of rapid movement. And he had a good many subjects for thought at present.

He was loyal to her ever, ready, if need be, to stake his life upon Lady Anne's nobility of mind and stainless honor, but he could not dispute from him self the fact that the production of her old letter yesterday had frightened her, that she had not ventured to show scorn to Reuben until she had destroyed it, and that she had lied on the subject of George Anning.

Now and then, as he troubled his head with perplexing questions about her, Harry recalled Stephen Jessop's bitter words—

As beautiful as a vixen, but as treacherous as a snake, and Lady Anne Danvers is mad.

Harry stoutly refused to believe either statement; he could not reconcile her conduct with perfect honesty or perfect sanity, but in the face of his own powers of observation, he believed in her.

Had he not seen her face transfigured as that of an angel on the sea-

30 Champagne St., Montreal, Quebec—

"I have a five-year-old boy who was suffering from what the doctor said was 'a grade.' His body was all covered with running sores. The trouble started with pimples and opened up into sores. Of course scratching made it worse. The eruptions appeared on his face and disfigured him awfully. The boy could not sleep at night from the itching and pain, and I did not know what to do with him. It made him cross and fretful. If I have tried one, I have tried fifty remedies without result. At last I got a sample of Cuticura Soap and Ointment, and after using them two days I noticed a change. I then bought a full-size cake of Cuticura Soap and one box of Cuticura Ointment, and I used to give the boy a hot bath daily using Cuticura Soap and then applied the Cuticura Ointment. He had suffered three months with the trouble before I started to use the Cuticura Soap and Ointment, and nine days after the boy was cured and has not been troubled since." (Signed) B. and night of his stay at Crayborne, when she had gazed up into the starlit sky and believed herself to be unobserved.

That angel look of hers, when she did not suspect the presence of a witness, meant more to her loyal worshiper than all her inconsistent and perplexing actions.

By nine o'clock Harry was entering his room, filled with a spirit of almost defiant faith in Lady Anne, and resolutely determined to listen to nothing, whether it came from Reuben's trying to bring against her, when, in a lone being down the, he perceived ahead of him another being, jogging along slowly and dejectedly, with lowered head and a general air of depression and fatigue.

He recognized at once the slim figure in the white habit and the Panama hat. It was Lillias Morgan, and for once Lillias was in low spirits.

Even as he joined her he discovered that she had tears in her eyes. But she brightened at once at sight of him and blushed a rosy color.

Something is the matter, he said, laying his hand kindly on her bride. Oh, you tell me what it is?

What, it is nothing, she answered cheerily, at least, had to come. I am going back to the stage.

With your uncle's permission? Oh, my uncle does not care what he comes of me. In fact he has turned me out.

Is it possible? For what reason?

She blushed again, and was evidently embarrassed.

We don't think alike, she said after a pause. He has had his way too long, and is extremely domineering. That is not a reason for getting away.

No; but we had a tremendous scene yesterday, and he wanted me to give certain promises—

Well?

And I wouldn't, that's all. So I am going.

But you can't be leaving like this without any luggage! Do you propose to roam the world on horseback? Or to appear only in evening gowns, since you say you are going back on to the stage.

My luggage will be sent on.

But where?

Ah, that's just it, she answered a little sadly. London lodgings again, I suppose.

And I must have grown a Phillistine in these few days, for I dread the thought.

But where are you going now?

To see Lady Anne and ask her advice.

Now, that is really the first sensible thing I have heard you say this morning, he remarked in a brotherly tone. I am sure you can rely on Lady Anne's good sense and wise counsel. She was talking to me about you only yesterday in a most sympathetic way.

Lillias blushed again more deeply than ever.

She puzzled me, Harry continued, by blaming me for frightening you the night before last after the talk about George.

Lillias put up her hand to stop him. She was crimson now.

Please don't speak of it again, she faltered. I am ridiculously nervous and the thunderstorm has made me worse. But I can't now I have forgotten all about it.

She paused, half expecting him to give some explanation, but as he had not the least idea what she meant he remained silent, and presently she went on talking quickly and rather nervously.

Have you seen any more of that odious man from Australia?

A good deal. He went up to London the night before last, and having discovered that I was not an impostor came back yesterday afternoon. He met me in the grounds of the Abbey, and invited himself to dinner there.

Of course Lady Anne refused to have him?

No. But she invited me, too, to keep him in check. He finished the evening by asking her to marry him. He dared? That dreadful outsider? Imagine our queenly Lady Anne taking such a man!

What would she say? I asked him, and showed it. Then he left, breathing threats like a villain in melodrama.

Lillias was thoughtful.

Poor Lady Anne! she murmured presently. Her life seems shadowed. To me it always appears as though, through no fault of hers, she had no chance of normal happiness. One never sees her as she truly is, but always through a veil of doubt and mystery. Yet I believe her to be splendid—noble, unselfish, brave and full of affection and charity. What do you think?

Just as you do, he said, touched beyond words by her loyal appreciation of the woman he loved.

Lady Anne justified the girl's belief a little later, when Harry left her at the lodge gates and she was conducted into the drawing-room of the Abbey.

In the absence of Harry, Lillias could explain the real facts of her departure from her uncle's roof. Detail Varnie had learned from the groom of Harry's presence at the Abbey, and questioning Lillias, had elicited from her the truth as to the details of her visit.

In a fit of fury he had sworn to cast his niece off if she did not promise never again to communicate with Harry Clavel, and on her spirited refusal had told her that she must leave his house the next day.

## OUTRAGES URGED TO PREVENT BIG WAR

French Anarchists Issue Bold Manifesto Against National Conflict

In Paris, in order to put a stop to war, should France become involved in an international conflict, the French anarchists have issued a manifesto recommending the annihilation of the army. As a consequence M. Jules Lecomte, secretary of the Communist Anarchist Federation, has been arrested on the charge of inciting to theft, pillage and murder. The incriminating manifesto declared—

The Communist Anarchist Federation, which comprises all the anarchists in this country, is preparing in a practical manner the sabotage of the army and of the mobilization in case of war. We shall then the advantage of the disaster caused by war to realize the social revolution and to install communism.

They recommend the sabotage of the country, the abolishing of railroads, the destruction of bridges and tunnels and the melting down of the military arsenals and armories can be rendered useless and the horses poisoned.

## HOW'S THIS?

We offer our readers a better reward for any case of Croup that can be cured by J. J. CHERRY & CO., Toledo, O.

We have the evidence of a mother who writes: "My child was afflicted with Croup for nearly a year, and he was almost dead. I tried everything, but nothing would carry him out of his danger. I then bought a bottle of Cherry's Cough Cure, and he was cured in a few days."

## No Danger

City Cousin—But Cousin Eben, you can't go to the party in that dress. You look like your grandfather who was thirty years ago.

Cousin Eben—That's all right. You don't suppose there'll be anybody at the party that saw him in them, do you?

There is no poisonous ingredient in Holbrook's Corn Cure and it can be used without danger of injury.

## Uses an Antidote

I shouldn't think you could stand it to associate with Jones so much. He is wrong in the head on the subject of chickens, and you must know it. He talks about them in his sleep, thinks about them during the sermon, and interrupts an intelligent baseball conversation to give us the scores his hens laid last week. He would put me to the bad in a week.

You don't know how to utilize him. It would be better to use him as a punching bag.

You are too impetuous. Now, I find him a valuable ally. When Blinks comes along and starts talking about his baby I wait until he has to vent his breath and then mention chickens. That sets Jones going, and I slip out and let them enjoy themselves. I can show you all how to do it, on the theory that like cures like.

## Advancement

There is a rhyme, you will recall, which says the farmer feedeth all. I know that that was the way. But it is not the case today.

The farmer turns the bulls in. And then the monkey shines begin. The fellows who adulterate.

Work early, often, soon and late. They take the products to the mines. They take the roots and creeping vines.

They grind on rocks and shovel and or anything that comes to hand—Old bricks, unburnt rime and lime. And send it sky-high after cats—Mix with the turf the farmer brought in. And they take the products to the mines. They take the roots and creeping vines.

On this a mere food label, paste and put it on the market places. Where folks may buy to feed their faces.

## No Skill Required

Litigant—Your fee is outrageous. Why, it's more than three-fourths of what I recovered.

Lawyer—It furnished the skill and the legal learning for your case. Litigant—But I furnished the case. Lawyer—Oh, anybody can fall down a coal hole.

## In Olden Days

Old man Aesop had just promised his wife he would be home early. You don't seem to put much dependence in his promise," remarked the friend.

No, laughed Aesop's wife; I thought perhaps it might be another of his fables.

Congratulations, old man. How much does your new baby weigh?

Outfit your kidding. Honestly. I am a coal dealer and I weighed his boy on my own scales.

## Proved His Case

Every one knew Jonathan Skinfint as a millionaire with the exception so it appeared, of Skinfint himself. He invariably wore the shabbies; of clothes and is reported to have dined one day on a couple of peas and a grape skin.

One day an old friend endeavored to persuade the miser to dress better, am surprised, he said, that you should let yourself become so shabby. But I am not shabby, expostulated Skinfint.

Oh yes you are, replied the friend. Remember your father. He was always neatly dressed. His clothes were very handsome.

Skinfint gave utterance to a hearty laugh. Why, he shouted triumphantly, these clothes I've got on now were father's.

## With The Tide

It had been raining for twenty-four hours, and the ground was more like a lake than a football field; but the referee could not see his way to postpone the match.

Surely you aren't going to make us play in this? asked the visiting captain.

Of course you must play, declared the man with the whistle. Now, don't—about the referee's orders. Which end are you taking?

Oh, well, came the reply, with a sigh of resignation, I reckon we'd better kick with the tide.

## Some Paradox

The aeroplane is here to stay. Wouldn't you know the reason why? Because—because it records say. The aeroplane can fly.

The truth is, if it couldn't go that fast, it wouldn't be worth it, don't you know.

# THE FARMER AND HIS GRAIN

The only sure and satisfactory way in which the Western Farmer can secure the highest possible market value for his wheat, oats, barley and corn is by shipping them to Fort William or Port Arthur, or to Duluth if cars cannot be got for the other terminals (loading it if possible direct into the car over the loading platform to save elevator charges and dockage) and employing a strictly commission firm to handle and dispose of it.

We continue to act as the Farmers' Agents solely on a commission basis. We are not truckbuyers and we never buy the Farmers' grain on our own account, but look after and dispose of the grain entrusted to us, as the agents of those who employ us, and it is our desire and endeavor to give everyone the best service possible. We make liberal advances against elevator bills, and we pay the rate of exchange, if considered advisable. We invite all Farmers to write to us for shipping instructions and market information.

## Every Farmer Needs a Ford

**T**HE Motor Car is a greater convenience to the average farmer than the telephone, the rural mail or even the grain binder.

The binder which is considered as a very useful implement is rarely used more than a few days during the entire year. The rest of the time it stands idle, taking up space, while the automobile is available for use throughout all seasons, and both day and night.

It is ever ready to run down the lane to the back field or the pasture with a parcel or a message, or take you and your family to town for shopping purposes—or on an errand to the neighbors.

The motor car is called upon whenever anything is wanted in a hurry. It is the most useful implement or convenience for the farm. It helps you conserve your energies and time for productive work and enables you and your family to accomplish more with less energy. You surely feel the need of a Ford. Why not order one today?

## 50 Years an Oddfellow

An interesting event took place at Calgary on Monday evening last, when L. H. Tarrant, of Crossfield (father of Mrs. Capt. Wigle), was presented with the Honor Jewel in connection with the I.O.O.F. J. A. Tully, Grand Master of the Grand Lodge of Alberta, in a few well chosen remarks presented Bro. Tarrant with the Honor Jewel, which honor necessitates 50 years service as an oddfellow. Bro. Tully remarked in the course of his speech that Bro. Tarrant was the first one in the Province of Alberta to receive that honor, also in the Province of Ontario Bro. Tarrant is the tenth to receive the Honor Jewel. Bro. Tarrant is still a member of First City Lodge, London, Ontario. A number of the local oddfellows journeyed to Calgary to witness the presentation.

**A Soldierly Accomplishment**

Quickness Is Needed in Preparing Trenches to Repel an Attack

The best thing an infantryman does is dig. He learns to dig quickly, to dig frantically, but efficiently, for many times during a year in the trenches his shoel saves his life, and the ground he has won at the risk of his life.

This is best illustrated in the case of a successful attack. . . . The fourth trench—the last to be taken—is where the real active activity comes. One second wasted may mean a hundred lives lost.

The reason for this rush is that it is now a maximum of the fighting on the western front that a counter-attack may reasonably be expected within five minutes after a set of trenches has been taken—certainly within ten. The enemy, in making a counter-attack, naturally hits first at the trench nearest him, which is the fourth one captured in the successful attack. Therefore it is vitally necessary to lay the parapet the other way, pile up the sandbags, piles and other obstructions, for breastworks, throw up barbed wire and fasten it to a tangle of stakes if time allows, and generally transmit what has been the enemy's fourth line of defence into a new first line trench ready to repel an attack.

**The German Emperor**

By J. W. Gerrard in "Face to Face With Kaiserism"

The talents and ability and agreeable personality of the German emperor must not blind us to the fact that he is the central figure of a system which has brought the world to a despair and misery such as it never knew since the days of the fall of history. We must remember that all his utterances disclose the soul of the conqueror of a man intensely anxious for earthly fame and a conspicuous place in the gallery of human events. He is, too, the great names of the past, his ears tuned for admiration and applause that they fail to hear the great, long-drawn wail of agony that echoes around the world. His eyes are so blinded with the sheen of his own glory that they do not see the mutilated corpses, the crime, the pestilence, the hunger, the incalculable toll that sweeps the earth from the jungles of Africa to the frozen plains of the north, from Siberia to Saskatchewan, from Texas to Trieste, from Alaska to Afghanistan—everywhere he has brought the angel of mourning to millions upon millions of desolate homes.

**YES! LIFT A CORN OFF WITHOUT PAIN!**

Cincinnati man tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear shoes that nearly killed you before, says this Cincinnati authority, because a few drops of Frezzone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or callus falls loose, so it can be lifted off, root and all, without pain.

A small bottle of frezzone costs very little at any drug store, but will positively take off every hard or soft corn or callus. And what, my friend, do you think of the matter? It is so inexpensive and is said not to irritate the surrounding skin. If your dearest have any frezzone tell them to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

**A Canny Scot**

Sandy and John were sitting in a car when a pretty girl got in and smiled at the former. He raised his hat.

"Do you know her?" asked the Englishman.

"Oh, yes, very well," the Scot replied.

"Well, shall we go and sit over beside her and then you can introduce me?" asked his companion.

"Wait a bit," returned the canny Scot. "She hasn't had her face yet!" —Pittsburgh Chronicle-Telegraph

The British government has recently announced that it requires only five women to do the work of four men in munitions factories, despite the fact that most of the women picked in without training.

**MARCH TO VICTORY**

Courage is a matter of the blood. Without good red blood a man has a weak heart and poor nerves.

In the spring is the best time to take stock of one's condition. If the blood is thin and watery, pale or simply generally weak, tired and listless, one should take a spring tonic. One that will do the spring house-cleaning on an old-fashioned herbal remedy that was used by everybody nearly 50 years ago is still sold and named because it contains no alcohol or narcotic. It is made up of Blood root, Golden Seal, Oregon Grape, Queen's root, Stone root, Black Cherry bark—extracted with glycerine and made into a tonic. This blood tonic was first put out by Dr. Pierce in ready-to-use form and since then has been the most reliable tonic as Dr. Pierce's Golden Medical Discovery. If druggists do not keep this in stock, send 50 cents for a visit to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., or branch in Bridgeburg, Ont.

**Mike's Philosophy**

What Contributed Most to His Financial Success

Being well equipped physically, Michael Murphy had no difficulty in holding his job as sexton until the first interment, when he was asked to sign the certificate.

"I can't write," said Mike, and was discharged.

Out of a job, Mike turned to contracting and in time became wealthy and a figure in the community.

When he applied to the leading bank for loan of ten thousand pounds he was assured that he could get it, and was asked to sign the necessary notes.

Again he was obliged to reply, "I can't write."

The banker was astounded.

"And you have accumulated all this wealth and position without knowing how to write?" he exclaimed. "What would you have been today if you could write?"

Mike paused for a moment and answered: "I would have been a sexton."—Montreal Herald.

**Keep Minard's Liniment in the House.**

The Lawyer

"Father," asked the little son, "what is a lawyer?"

"A lawyer?" Well, my son, a lawyer is a man who tells two men to strip for a fight and then runs off with their clothes."—Buffalo Courier.

**BABY'S HEALTH IN THE SPRING**

The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined, to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colic, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

Passenger Agent—Here are some postcard views along our line of railway. Would you like them?

Visitor—No, thank you. I rode over the line one day last week and have views of my own on it.

**PEELS OFF A CORN WITHOUT ANY PAIN**

It is magic, no, scientific—a wonderful combination discovered that will shiver up the toughest corn you ever saw. The name of this remedy is Putnam's Corn Extractor. It is a corker the way it loosens a corn; makes it fall right off in solid lump without the slightest pain. Results talk. Putnam's gives results and costs but a quarter. Sold everywhere.

## Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?

## Standard Drilling Rigs Now Ready to Pound Their Way Into The Oil Sands

### Warm Springs—Wyoming

Already one of the big producing fields of Wyoming. Eight wells have been completed and fortunate stockholders are drawing big dividends every month in the year. This is a "shallow" field and the drilling cost is at a minimum. Through a peculiar turn of fortune the Van Duzen Co. was able to secure a valuable lease on this structure. At least a dozen companies are now drilling towards the oil producing sands in the Warm Springs Dome and we do not expect to lose much time in starting our operations there. Remember this is a producing field.

### Sundance-Upton Fields—Wyoming

We were in this field before the boom started and have 6,000 acres under lease on the very apex of the structure. This dome bids fair to be one of the best fields in Wyoming and our large acreage will always make us the big company of this field. We have one rig spotted in this field.

### Salt Creek—Wyoming

This is the most consistent oil producing field in all the world, and although the field is but five years old, it has made more wealthy people than any of the big fields of Wyoming. The wide-awake men who are at the head of this company have secured 320 acres of land less than a half mile from one of the largest gushers in the field. One 500 barrel well in this field at \$1.00 per barrel would mean more than 20 per cent per annum on the total capitalization of the Van Duzen Oil Co. We have room for 64 wells on this property.

### The Crazy Woman's Pocket—Montana

This dome has been recognized by many geologists to be the most perfect structure for an oil reservoir in all of America. Two other companies have wells in the process of completion on this dome, and it is reported that one of them has already encountered an oil producing sand. The Van Duzen Oil Co. has secured 600 acres of deeded land lying midway between the two wells now drilling. Our derrick is now in the course of construction. When this field is proven it will be the first producing field in Montana. Boom prices will prevail and our stock is sure to go sky high.

### Powder River Junction—Wyoming

We have a one-third locator's interest in three one-quarter sections lying within a quarter of a mile from a well now being drilled by the famous Ohio Oil Co. This dome is looked upon as being one of the coming fields of the state. Shallow drilling and its proximity to rail transportation will make this field a big dividend payer.

Will the Red Cross workers please take notice of the following letter: The Canadian Red Cross Society, Calgary Branch, May 31st, 1918.

Dear Mrs. Thomas: We beg to acknowledge with thanks your shipment of supplies which has been received at the depot. We are very glad, indeed, to have this work, which is very nicely done, with the exception of the personal property bags, and you might suggest to your workers that personal property bags require to be particularly and firmly finished off; also that hinders should be stitched on all four sides.

Our Commissioner reports that 2,620 cases less were received during the month of February, and 2,314 more cases were distributed than during the preceding month. It will be noted from this statement that the demand for Red Cross supplies is very great, and that shipments in the past have not met the current demand. We would, therefore, again urge on all workers to do their utmost to keep up the shipments to this depot, in order that we may send a sufficient supply overseas.

Thanking you for all that your workers have done in the past and looking for future shipments, I remain, Yours faithfully,

MARY C. WALKER,  
Hon. Supt. of Supplies and Joint Sec'y,  
Alberta Provincial Branch,  
Mrs. Thomas, Crossfield Branch,  
Crossfield, Alta.

The Red Cross workers will be interested to know the Red Cross Depot received cards from Pte. W. K. Beatie also Pte. T. Boyes, stating they had received their parcels on Feb. 9th and Mar. 3rd. These are the prisoners in Germany who were adopted by this society.
